

Back to school – Winter 2022

January 20, 2022: Registration and welcome activity online starting at 9 a.m.

Keep an eye on the What`s new section in Omnivox to connect.

**

If you need a workspace or Internet access, individual spaces are available to you at your campus library.

To reserve a place, write to:

Gaspé : Julie Pink, jpink@cegepgim.ca

ÉPAQ : Daniel Larochelle, dlarochelle@cegepgim.ca

Carleton-sur-Mer campus : Virginie Dugas, vdugas@cegepgim.ca

Îles-de-la-Madeleine campus : Isabelle Vigneau, ivigneau@cegepgim.ca

Information for parents :

We want to stay in touch!

We`ll be using the MIO messaging system as well as an Omnivox community.

To complete the formalities associated with your admission, you simply have to follow these instructions... steps 1 to 9, presented below.

Step 1 (For new students): Set up your Omnivox access (to be done as soon as possible) at <https://cegepgim.omnivox.ca/>

Your time as a student at the Cégep de la Gaspésie et des Îles has begun and you'll have access to academic organisation services via OMNIVOX. You'll be able to confirm your choice of courses, consult your balance and retrieve your schedule.

1- Access [OMNIVOX](#).

- On the gateway page, you can choose English or French -> top right.
- Follow the instructions on the screen. Take note of your password as it will be used throughout your time at the College.
- If you have any difficulty with your file number, call 418-368-2201 (or toll-free 1888-368-2201), ext. 1420 or e-mail kpatterson@cegepgim.ca.

2- Update your contact information in your “Personal file” module.

- Record any changes to your telephone number, e-mail address or street address. Also add your Social Insurance Number (SIN) so the College can produce your tuition tax credit statement. IMPORTANT: Provide emergency contact information.

3- Produce your student card

- Upload your passport photo using the appropriate tab by following the instructions; it will be used to create your student card.

For more information, please consult the information on how to use [Omnivox](#).

Step 2 (For new students): Choose your courses for the Winter 2022 session.

In order to receive your schedule for the upcoming term, we invite you to confirm your course selection via the “Course Selection” module on Omnivox.

If necessary, contact your Personal Academic Advisor for any information related to your course selection or program of study.

Your schedule will be available in August for the fall term and in January for the winter term, approximately one week before the beginning of the school year.

Step 3: Pay your term fees

You will receive an email and a MIO message notifying you that the invoice for your term fee is available. You will be able to view and pay it on Omnivox via the “Payment Centre” module. To keep your presence on campus to a minimum, you must pay through the Omnivox Payment Centre, at an ATM or online at your financial institution. Keep your proof of payment.

If you have not paid your fee by the due date indicated on your invoice, you will not be able to retrieve your schedule and confirm your registration. A late fee may be charged.

Step 4: Retrieve your schedule (*IMPORTANT)

You must retrieve your schedule to confirm your registration. Retrieve your schedule in mid-January on Omnivox. You may have to pay a late fee if you do not respect the deadline of January 20 at 4 p.m.

Step 5 (For students to whom this applies): Update your immunisation record (students enrolled in certain programs only)

Students enrolled in *Nursing, Medical records, Delinquency intervention, Childhood education, Special education* or *Social work* programs must comply with the measures regarding the updating of their [immunisation record](#). If necessary, contact

418-368-2201 (or call toll free 1-888-368-2201), ext. 1380 or by e-mail at registrariat@cegepgim.ca.

Step 6: Submit your financial aid application, if necessary

If you wish to apply for financial aid, you need to visit the following site, <http://www.afe.gouv.qc.ca/> and complete an application on line.

Here's the list of [educational institution and program codes](#) you will need.

If you have any questions or if you need help with your application, you can contact the person in charge of the Student Financial Aid Office at the Cégep de la Gaspésie et des Îles, Germain Thibault, at aidefinanciere@cegepgim.ca or via MIO.

Here's another link you may find helpful: <http://www.cegepgim.ca/futurs-etudiants/bourses-et-incitatifs>

Step 7: Take the steps to register for adapted services

Were you provided with support measures or accommodations in high school? Good news! You can also get them at College.

To do so, you must absolutely have a diagnosis of a condition that has an impact on your learning, issued by a Quebec professional. With this proof, you can make an appointment with the Student Access Centre on your campus. You will meet with a person authorised to determine the accommodations to which you will be entitled during your college studies in Gaspésie or on the Magdalen Islands.

At step 10, after you've chosen your campus, you will be able to contact the person responsible for opening files. Click on this link to be redirected to the [Student Access Centre](#) page.

You can make an appointment with a counsellor at another time. Click on [this link](#) to watch a presentation on learning support measures by Julie, a special educator at the College.

Step 8: Obtain the material you need

To be able to adequately take part in the distance learning program, students must have the following material on hand for the start of classes on January 24th:

- Operating system: Windows 10. *A Macintosh computer with the OS, X, 10.9 or more recent operating system can be used, but it is not supported by the IT Department.
- Processor and Memory: Intel Core 2 Duo 2Ghz or more recent and 2 GB RAM.
- Web Camera or Computer-embedded Web Camera with a resolution of 720p30 or higher.
- USB headset with microphone.

High Speed Internet connectivity required

Recommended material:

- An Antidote 10 licence.
- A second monitor or TV connected to your computer in extended mode (strongly recommended for courses requiring you to learn software such as Microsoft Office or Acomb).
(strongly recommended for courses requiring you to learn software such as Microsoft Office or Acomb).
- The free version of Lexibar software can be downloaded for those with reading and writing difficulties.

The Zoom application is used for all courses. The Zoom classroom is located on your LÉA platform. Your virtual classes will be available on Omnivox in the *What's New* section for each class.

If you are unable to obtain the material, please contact the College Student Financial Aid Office.

For textbooks or other needs specific to your program courses, consult your campus section.

Agendas will be sent by mail during the week of January 10th.

Resumption of classes in attendance and COVID-19

In addition to the distance learning programs and courses planned, the Cégep has planned to offer distance learning courses during the first week, that of January 24 (except for vocational training). The application of certain health measures (physical distancing, wearing a mask, etc.) should be followed by everyone when they return to class on January 31. However, it is difficult to predict whether new outbreaks will appear during the session. In the event of an outbreak, the formation, in whole or part, may need to return to distance mode. For this reason, we strongly encourage you to provide yourself with the necessary materials at the start of the session.

Technical support

If you have any questions, it is possible to reach a computer technician by completion a request at <https://support.cegepgim.ca/>

The instructions for entering your query are displayed right in the tool. A technician will contact you as soon as possible once the request has been sent.

Important : If you have an emergency which prevents you from taking your course and which therefore requires immediate assistance, you can contact Marie-Hélène Fournier by MIO.

The procedures for connection to the Cégep network to LÉA-Zoom classes will be available shortly in the Omnivox Help and Measures community, in the Technical and educational support section.

To obtain support for the use of Omnivox and LÉA, do not hesitate to contact Marie-Hélène Fournier through MIO and monitor the training activities that will be offered.

Step 9: Rules, policies and schedules

There are several rules and policies in effect at our College that will be very important to you as you complete your program.

You can consult them as follows:

<http://www.cegepgim.ca/cegep/reglements>

<http://www.cegepgim.ca/cegep/documents-officiels>

<http://www.cegepgim.ca/cegep/calendrier-scolaire>

Step 10: Choose your campus

New students… Follow the guide! – Gaspé

Personal academic advisor and remedial assistance

For any information about your path or program of study, please contact extension 1777 or api-api-gaspe@cegepgim.ca; you will be referred to the person responsible for your program. For detailed information on the services offered, you can consult the pedagogical support service page for your campus [pedagogical support department page for your campus](#).

Adapted services

We invite you to quickly contact the person responsible for learning support measures if you have a diagnosed functional limitation: Julie Labbé, ext. 1441 jlabbe@cegepgim.ca. For detailed information on the services offered, please consult the [Student Access Centre](#) page.

Housing

You have the option of staying at the campus residence. For more information, visit the [Residence](#) website

Sports-study stream

Students who are members of a swim club and who wish to continue their training during their school year are invited to register with Estelle Nauroy at ext. 1480 or enauroy@cegepgim.ca.

Academic material

During your first week of class, the teachers will share with you the list of materials you will need to start the session. This list will also be included in each of your lesson plans , accessible on the LÉA platform.

The services of the student COOP are functioning normally. The online shopping service is still available at (www.coopscogaspesie.com) to purchase textbooks and course notes.
